

THE COMFORT OF TEA

*According to ancient wisdom, the Elements are life's symbolic building blocks.
The Elements we refer to are Earth, Water, Fire, Air and Ether.
To live a harmonious life, one must have all five in balance.*

5 Elements ~ 5 Teas

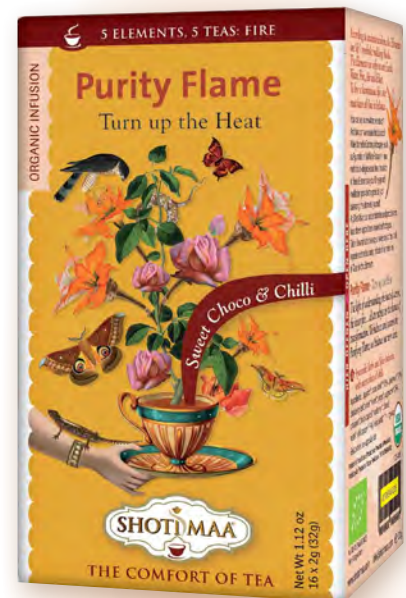

Touch the Ground
Happy Landings
Honeybush, Aniseed & Sage

Modern life can send the mind reeling. So much, so much to keep track of. We could stand to get back the feeling of walking barefoot on the ground – to be connected to our mother Earth – to be Grounded. For Life.

Emotional Detox
Feel Free
Sweet Hibiscus & Mint

Who can escape the lure of the deep? We feel the flow of desire and sometimes get swept away. Emotions can be a delicious or painful distraction. Either way, the same flow that can carry us away can also carry away our emotional attachments. It's a matter of balance.

Purity Flame
Turn up the Heat
Sweet Choco & Chilli

The light of understanding, the heat of action, the inner fire... all are subject to the flames of transformation. We balance and control the Purifying Flame; we balance our very lives.

The wind can be wild or mild. Thoughts can flow or slow. Our very breath is the source of life – the source of energy – the source of motion.

The stillness. The space that holds everything else. Listen.
